

Script Notes by Julia

SCRIPT COVERAGE SERVICES TESTIMONIALS

"I've been a writer, a time coder for writers, an actor, and worked with scripts for my entire adult life. I am impressed by Julia Morizawa's ability to not only cover a story well, she knows how to precisely and concisely get to the heart of what isn't working, as well as what is. She has wonderful, clear, ideas for how to turn a decent script into a great one. She has a keen eye, and feel for screenwriting and I highly recommend her for script doctoring, coverage, and overall script advice."

-Susan Marque

"Julia provided us with feedback worth its weight in gold. She combed through our script with care and understood each scene's intention and how every line and action would (or wouldn't) fit into the bigger picture. Her brilliant suggestions helped polish the rougher areas of our script, so we highly recommend that anyone prescribe their work the Morizawa treatment!"

-Joshua Ortiz,

"WOW! These notes are incredible, some of the best and most detailed I've ever gotten. You're like a screenwriter whisperer!"

-Monifa Parker

"Thank you so much for taking the time to read my script and providing this valuable feedback, Julia! Please let me know if you go into business writing coverage as I'd be happy to recommend you. I was very impressed by your attention to detail. I've paid for coverage via Coverfly and other services, and the notes I got back were often scattered and too vague. You're definitely a level up!"

-Elaine Chu

"I just wanted to give a shout-out to analyst [redacted] for his coverage on my short animated film [redacted]. Their coverage was immensely helpful for this project and all projects I'll write in the future. It was very insightful, well-articulated, helpful, and positive spirited which I appreciated very much. I've gotten coverage 5 times and this was by far the most worthwhile of them all. Glad to have discovered Shore Scripts. I'm looking forward to sending more projects your way."

“Thank you again for the excellent development notes. The reader went above and beyond, especially since it was done over the holiday weekend. I would have been completely understanding if your services were unavailable for the holiday, but you are so committed that even the quality wasn't sacrificed. For that and the notes that are already improving my work and more importantly my craft in general, thank you, and I look forward to the next one.”

“First I want to thank you for your terrific coverage on [redacted], the notes were right on, really helpful and inspired me to apply them adding roughly 15 more pages. You went above and beyond the two pages and really covered the hell out of the thing. So a huge thank you!”
